

PUBLIC TRANSPARENCY REPORT

2023

Bellevue Asset Management Ltd

Generated 15-12-2023

About this report

PRI reporting is the largest global reporting project on responsible investment. It was developed with investors, for investors.

PRI signatories are required to report publicly on their responsible investment activities each year. In turn, they receive a number of outputs, including a public and private Transparency Report.

The public Transparency Reports, which are produced using signatories' reported information, provide accountability and support signatories to have internal discussions about their practices and to discuss these with their clients, beneficiaries, and other stakeholders.

This public Transparency Report is an export of the signatory's responses to the PRI Reporting Framework during the 2023 reporting period. It includes the signatory's responses to core indicators, as well as responses to plus indicators that the signatory has agreed to make public.

In response to signatory feedback, the PRI has not summarised signatories' responses – the information in this document is presented exactly as it was reported.

For each of the indicators in this document, all options selected by the signatory are presented, including links and qualitative responses. In some indicators, all applicable options are included for additional context.

Disclaimers

Responsible investment definitions

Within the PRI Reporting Framework Glossary, we provide definitions for key terms to guide reporting on responsible investment practices in the Reporting Framework. These definitions may differ from those used or proposed by other authorities and regulatory bodies due to evolving industry perspectives and changing legislative landscapes. Users of this report should be aware of these variations, as they may impact interpretations of the information provided.

Data accuracy

This document presents information reported directly by signatories in the 2023 reporting cycle. This information has not been audited by the PRI or any other party acting on its behalf. While this information is believed to be reliable, no representations or warranties are made as to the accuracy of the information presented.

The PRI has taken reasonable action to ensure that data submitted by signatories in the reporting tool is reflected in their official PRI reports accurately. However, it is possible that small data inaccuracies and/or gaps remain, and the PRI shall not be responsible or liable for such inaccuracies and gaps.

SENIOR LEADERSHIP STATEMENT

Indicator	Type of indicator	Dependent on	Gateway to	Disclosure	Subsection	PRI Principle
SLS 1	CORE	N/A	N/A	PUBLIC	Senior Leadership Statement	GENERAL

Section 1. Our commitment

- Why does your organisation engage in responsible investment?
- What is your organisation's overall approach to responsible investment, and what major responsible investment commitment(s) have you made?

Bellevue Asset Management AG adheres to sustainable, responsible business practices in accordance with our core values - independent - entrepreneurial - committed.. We regard good business practices as a key factor for our success and as absolutely necessary for achieving our strategic corporate goals and creating sustainable value for all our stakeholders. We acknowledge that business activities unavoidably have a direct or indirect impact on environmental, social and governance issues and that the company must take a responsible stance in this regard.

At Bellevue Asset Management AG, we are committed to active asset management. Active management means: Investing with conviction. We know exactly what we are investing in and are highly disciplined investors. Investment ideas do not have to be run past any high-level investment committees or a Chief Investment Office ("CIO". Our expert investment teams within the various product areas operate autonomously while maintaining high standards of responsibility, mutual respect and visionary leadership. Our employees are investment experts and entrepreneurs at the same time and have a personal stake in the success of their clients. All this has kept us and our clients one step ahead of the market since 1993. Portfolio management teams are given as much autonomy and responsibility as possible to unlock their visionary potential. This setup also creates a bottom-up driven approach when it comes to responsible investing.

We have embraced sustainability at portfolio level for years. In fact, the Bellevue Sustainable Healthcare fund – our first dedicated ESG strategy – was launched back in June 2018. Within the scope of our ESG integration approach, strict exclusion criteria are applied and environmental, social and governance factors are an integral part of our fundamental research and analysis across all portfolios and funds. As a responsible long-term investor, Bellevue Asset Management AG supports all measures and moves designed to increase the value of portfolio companies over the long term. This includes engagement activities as well as the exercising of voting rights at general meetings of shareholders.

Sustainable and responsible business conduct is imperative and at the same time an opportunity to actively address the challenges that lie ahead in coming years – in the interests of our clients, shareholders, employees and of society in general.

Section 2. Annual overview

- Discuss your organisation's progress during the reporting year on the responsible investment issue you consider most relevant or material to your organisation or its assets.
- Reflect on your performance with respect to your organisation's responsible investment objectives and targets during the reporting year. Details might include, for example, outlining your single most important achievement or describing your general progress on topics such as the following (where applicable):
 - refinement of ESG analysis and incorporation
 - stewardship activities with investees and/or with policymakers
 - collaborative engagements
 - attainment of responsible investment certifications and/or awards

The extension of sustainability-related regulatory requirements in Europe has created additional obligations for market participants, particularly in asset management. The focus here is on the EU Disclosure Regulation 2019/2088 (Regulatory product disclosures, Art. 10) and on Commission Delegated Regulation (EU) 2021/1253 on MiFID II Sustainability Preferences (Art. 9). In this context, Bellevue has introduced the two criteria of "Investments with sustainable characteristics" and "Sustainable investments" and – in the absence of a standard Europe-wide classification system – implemented them in the investment process of the respective strategies with the greatest of care and in good faith based on currently available knowledge and the partially limited availability of data.

All investment strategies of Bellevue take into account social, environmental as well as governance-related characteristics (ESG) as part of the implementation of their investment objectives, in accordance with the provisions of Article 8 of the EU Disclosure Regulation 2019/2088 (EU SFDR), but do not have sustainability as their objective. In principle, the aim is to invest all assets of the relevant strategies in investments with sustainable characteristics. However, as there is not yet a sufficient amount of ESG data available in every asset class and sector, and given that some companies do not yet have an ESG rating, a minimum allocation of investments with sustainable characteristics has been set as a percentage of total invested assets.

Bellevue has also determined that a minimum proportion shall be invested in sustainable investments within the meaning of Disclosure Regulation 2019/2088 (Art. 2(17)), which defines a «Sustainable investment» as an investment in an economic activity that contributes to the achievement of an environmental and/or a social objective while not significantly harming any of these objectives. Furthermore, the investee companies must apply practices of good corporate governance («Good governance»). Investments are assigned to the «Sustainable investment» quota if, on the one hand, they exhibit a positive target contribution in terms of the 17 UN Sustainable Development Goals and, on the other hand, they meet the described sustainable investment characteristics. Minimum quotas of 25% and 50%, depending on the product characteristics, have been defined for the categorization of a sustainable investment. Here too, the existing ESG research coverage as well as the investment focal point (e.g. small and mid-caps) play an instrumental role. In accordance with the above definitions and applied methodologies, around 87% of the liquid net invested assets of Bellevue qualified as «Investments with sustainable characteristics» and 54% as «Sustainable investments» in the context of the EU SFDR as at December 31, 2022.

In addition to the implementation of complex and rapidly evolving regulatory ESG requirements the organization has put a lot of emphasis on its stewardship activities. In 2022 our portfolio managers and analysts virtually attended 583 general meetings and voted on approximately 7,000 proposals. Additionally, we have established a proprietary tool in which ESG engagement activities are systematically recorded and subsequent developments documented over time. 22 new ESG engagement cases were launched in the 2022 financial year.

We are also pleased to have started a partnership with Swiss Sustainable Finance (SSF) in October 2022. Through this partnership, we are supporting SSF's mission of strengthening Switzerland's position as a leading advocate for sustainable finance and thus contributing to a green and prosperous Swiss economy.

Section 3. Next steps

■ What specific steps has your organisation outlined to advance your commitment to responsible investment in the next two years?

- Transparency: Expansion of client reporting by a dedicated sustainability factsheet
- Regulation: Implementation of state-of-the-art regulatory ESG requirements
- Reporting: GRI annual report for FY 2023, IFRS S1 and S2 from FY 2024 onwards
- Stewardship: Continued formalization of engagement activities and update of respective policies
- Education: Training of investment professionals and other relevant teams on responsible investment topics
- Investment community: Feature sustainability related content across the firm's marketing activities (Interviews, media, events etc.)
- Collaboration: Strengthen the collaboration with important actors of the sustainability ecosystem

Section 4. Endorsement

'The Senior Leadership Statement has been prepared and/or reviewed by the undersigned and reflects our organisation-wide commitment and approach to responsible investment'.

Name

Veit de Maddalena

Position

Chairman of the Board of Directors of Bellevue Asset Management AG

Organisation's Name

Bellevue Asset Management Ltd

● A

'This endorsement applies only to the Senior Leadership Statement and should not be considered an endorsement of the information reported by the above-mentioned organisation in the various modules of the Reporting Framework. The Senior Leadership Statement serves as a general overview of the above-mentioned organisation's responsible investment approach. The Senior Leadership Statement does not constitute advice and should not be relied upon as such. Further, it is not a substitute for the skill, judgement and experience of any third parties, their management, employees, advisors and/or clients when making investment and other business decisions'.

Indicator	Type of indicator	Dependent on	Gateway to	Disclosure	Subsection	PRI Principle
PGS 4	PLUS	PGS 1	N/A	PUBLIC	Responsible investment policy elements	1 – 6

Does your formal responsible investment policy(ies) identify a link between your responsible investment activities and your fiduciary duties or equivalent obligations?

☒ (A) Yes

Elaborate:

With reference to the Bellevue Group sustainability guideline, Bellevue Asset Management AG is committed to sustainable, responsible and value-oriented corporate practices. It regards good corporate practices as a key success factor and an indispensable prerequisite for achieving strategic corporate goals and creating sustainable value for stakeholders such as customers, employees, shareholders, the interested public, the environment and society. Bellevue Asset Management AG recognises that all business activities inevitably have a direct or indirect impact on environmental, social and governance issues and that it must take responsibility for this. This includes the behaviour and principles according to which Bellevue Asset Management AG invests the capital entrusted to it.

- (B) No

- ☐ 3
- ☐ 4
- ☒ 5

- ☐ (E) Formal collaborative engagements, e.g. PRI-coordinated collaborative engagements, Climate Action 100+, or similar
- ☐ (F) We do not use any of these channels

Indicator	Type of indicator	Dependent on	Gateway to	Disclosure	Subsection	PRI Principle
PGS 27	PLUS	OO 8, OO 9	N/A	PUBLIC	Stewardship: Overall stewardship strategy	2

How are your organisation's stewardship activities linked to your investment decision making, and vice versa?

Active management means investing with conviction. We know what we are investing in, and pursue this with great discipline. At Bellevue you will not find any overarching investment committees or a CIO. Working independently in their own product areas, the relevant investment specialist teams are all committed to personal responsibility, respect, and the strength of their own vision. As well as being investment experts, our employees are simultaneously entrepreneurs who participate in the success of clients through their own investments. Active management also stands for constructing high-conviction portfolios based on a bottom-up oriented investment process, which inherently includes not only the decision to allocate a security, but also in many instances to exclude a security for various reasons. The latter is often a result of an in-depth interaction with company representatives, which we would certainly also describe as a type of engagement.

This commitment to active investment management also highlights the importance of engagement as a key element in our ESG framework. Portfolio managers are engaged in an active and constructive dialog with the executives and other relevant stakeholders of portfolio companies on environmental, social and governance issues. All our engagements are conducted along (but not limited to) our predefined list of key ESG issues, which are reviewed periodically and may change in terms of priority as a result of changing dynamics in the field of ESG.

The progress we are aiming for may stall or not advance as expected. This scenario requires an escalation strategy, which increases the probability of a successful engagement outcome. Our escalation strategy may include the following elements, which are selected and applied as deemed most appropriate by the respective portfolio management team:

- Targeting higher levels of the corporate hierarchy, including Board of Directors
- Voting against relevant AGM resolutions
- Collaborative engagement efforts

For Engagements with objectives, if after 36 months no visible/measurable progress can be observed, a strategic re-assessment of the position may lead to the following measures:

- Quarantine of the position, i.e. position increase no longer possible
- Divestment of the position

Since a sale by its nature significantly reduces the level of dialogue and our influence on the company, we consider this action to be the very last measure.

Indicator	Type of indicator	Dependent on	Gateway to	Disclosure	Subsection	PRI Principle
PGS 28	PLUS	OO 8, OO 9	N/A	PUBLIC	Stewardship: Overall stewardship strategy	2

If relevant, provide any further details on your organisation's overall stewardship strategy.

As a responsible investor with a long-term focus, Bellevue supports all measures and initiatives that increase the value of the invested companies over the long term in the interests of shareholders and investors. This includes engagement activities as well as the exercise of voting rights on the occasion of general and shareholders' meetings.

STEWARDSHIP: (PROXY) VOTING

PGS 37	CORE	Multiple, see guidance	N/A	PUBLIC	Stewardship: Escalation	2

For your corporate fixed income assets, what escalation measures did your organisation, or the external investment managers or service providers acting on your behalf, use in the past three years?

- ☐ (A) Joining or broadening an existing collaborative engagement or creating a new one
- ☐ (B) Publicly engaging the entity, e.g. signing an open letter
- ☐ (C) Not investing
- ☐ (D) Reducing exposure to the investee entity
- ☐ (E) Divesting
- ☐ (F) Litigation
- ☐ (G) Other

☒ **(H) In the past three years, we did not use any of the above escalation measures for our corporate fixed income assets**

Explain why: (Voluntary)

STEWARDSHIP: ENGAGEMENT WITH POLICY MAKERS

Indicator	Type of indicator	Dependent on	Gateway to	Disclosure	Subsection	PRI Principle
PGS 39	CORE	OO 8, OO 9	PGS 39.1, PGS 39.2	PUBLIC	Stewardship: Engagement with policy makers	2

Did your organisation, or the external investment managers or service providers acting on your behalf, engage with policy makers as part of your responsible investment approach during the reporting year?

- ☐ (A) Yes, we engaged with policy makers directly
- ☐ (B) Yes, we engaged with policy makers through the leadership of or active participation in working groups or collaborative initiatives, including via the PRI
- ☒ **(C) Yes, we were members of, supported, or were in another way affiliated with third party organisations, including trade associations and non-profit organisations, that engage with policy makers, excluding the PRI**
 - ☐ (D) We did not engage with policy makers directly or indirectly during the reporting year beyond our membership in the PRI

Indicator	Type of indicator	Dependent on	Gateway to	Disclosure	Subsection	PRI Principle
PGS 39.1	CORE	PGS 39	N/A	PUBLIC	Stewardship: Engagement with policy makers	2

During the reporting year, what methods did you, or the external investment managers or service providers acting on your behalf, use to engage with policy makers as part of your responsible investment approach?

- ☐ (A) We participated in 'sign-on' letters
- ☐ (B) We responded to policy consultations
- ☐ (C) We provided technical input via government- or regulator-backed working groups
- ☐ (D) We engaged policy makers on our own initiative
- ☒ **(E) Other methods**

Describe:

Consultation on EU SFDR through Austrian Ecolabel and BVI Germany

Indicator	Type of indicator	Dependent on	Gateway to	Disclosure	Subsection	PRI Principle
PGS 39.2	CORE	PGS 39	N/A	PUBLIC	Stewardship: Engagement with policy makers	2

During the reporting year, did your organisation publicly disclose details of your engagement with policy makers conducted as part of your responsible investment approach, including through external investment managers or service providers?

- ☐ (A) We publicly disclosed all our policy positions
- ☐ (B) We publicly disclosed details of our engagements with policy makers
- ☒ **(C) No, we did not publicly disclose details of our engagement with policy makers conducted as part of our responsible investment approach during the reporting year**

Explain why:

Consulation feedbacks on EU SFDR / RTS and Ecolable UZ49 discussions on a very technical level

STEWARDSHIP: EXAMPLES

Indicator	Type of indicator	Dependent on	Gateway to	Disclosure	Subsection	PRI Principle
PGS 40	PLUS	OO 8, OO 9	N/A	PUBLIC	Stewardship: Examples	2

Provide examples of stewardship activities that you conducted individually or collaboratively during the reporting year that contributed to desired changes in the investees, policy makers or other entities with which you interacted.

(A) Example 1:

Title of stewardship activity:

French service provider (advertising, marketing, social research)

(1) Led by

- ☒ (1) Internally led
- ☐ (2) External service provider led
- ☐ (3) Led by an external investment manager, real assets third-party operator and/or external property manager

(2) Primary focus of stewardship activity

- ☐ (1) Environmental factors
- ☐ (2) Social factors
- ☒ (3) Governance factors

(3) Asset class(es)

- ☒ (1) Listed equity
- ☐ (2) Fixed income
- ☐ (3) Private equity
- ☐ (4) Real estate
- ☐ (5) Infrastructure
- ☐ (6) Hedge funds
- ☐ (7) Forestry
- ☐ (8) Farmland
- ☐ (9) Other

(4) Description of the activity and what was achieved. For collaborative activities, provide detail on your individual contribution.

Details of the engagement

In April 2022 various minority shareholders representing a total of fewer than 5% of the voting rights proposed the nomination of A. Z.* as an independent member of the executive board at the next annual general meeting in mid-May 2022. This was with the aim of improving the company's governance structure. Although we share the view that governance at the company in question needed to be improved further, following a personal exchange of views with the proposed candidate we were not fully convinced by his profile. We also shared some of the concerns of the minority shareholders, even if in some cases they were clumsily worded. We reported this to the company, as represented by the CEO, CFO and IR. ISS advised voting for the appointment of A. Z.*; however, we voted against the nomination.

Outcome

In May 2022 the nomination of A. Z.* was rejected, to our satisfaction. Nevertheless, the fact that the governance criticisms expressed had now been identified and addressed by the company management was a significantly positive development. In an initial step the CEO/chairman role was split; in addition, a new CFO was appointed.

* Abbreviation arbitrarily chosen.

(B) Example 2:

Title of stewardship activity:

PacificBiosciences

(1) Led by

- ☒ (1) Internally led
- ☐ (2) External service provider led
- ☐ (3) Led by an external investment manager, real assets third-party operator and/or external property manager

(2) Primary focus of stewardship activity

- ☐ (1) Environmental factors
- ☐ (2) Social factors
- ☒ (3) Governance factors

(3) Asset class(es)

- ☒ (1) Listed equity
- ☐ (2) Fixed income
- ☐ (3) Private equity
- ☐ (4) Real estate
- ☐ (5) Infrastructure
- ☐ (6) Hedge funds
- ☐ (7) Forestry
- ☐ (8) Farmland
- ☐ (9) Other

(4) Description of the activity and what was achieved. For collaborative activities, provide detail on your individual contribution.

Details of the engagement

With an MSCI ESG rating of B («Laggard»), PacBio had a below-average sustainability rating at the start of our ESG engagement. On November 8, 2021, we then embarked on an extremely constructive dialog with Christian Henry (CEO) and Todd Friedmann (IR); analysis of the research report from MSCI ESG showed that the ostensible laggard rating was not attributable to poor ESG quality standards but primarily to a lack of sustainability reporting. On 6 December 2021, PacBio informed us that the company had hired an ESG consultant. The top priority was to set up a sustainability website and produce a sustainability report. On February 9, 2022, PacBio confirmed that it had started internal work on its ESG transparency processes as a result of our bilateral exchange of views and engagement. On May 11, 2022, PacBio notified us that the first sustainability report would be published over the course of summer 2022.

Outcome

PacBio's first sustainability report can now be viewed at <https://www.pacb.com/sustainability/>. We are convinced that this is an important step towards greater transparency, as well as strengthening awareness of ESG, and that such efforts are also likely to be reflected in future rating upgrades (BBB Rating as per June 2023).

(C) Example 3:

Title of stewardship activity:

(1) Led by

- (1) Internally led
- (2) External service provider led
- (3) Led by an external investment manager, real assets third-party operator and/or external property manager

(2) Primary focus of stewardship activity

CLIMATE CHANGE

Indicator	Type of indicator	Dependent on	Gateway to	Disclosure	Subsection	PRI Principle
PGS 41	CORE	N/A	PGS 41.1	PUBLIC	Climate change	General

Has your organisation identified climate-related risks and opportunities affecting your investments?

☒ (A) Yes, within our standard planning horizon

Specify the risks and opportunities identified and your relevant standard planning horizon:

Carbon intensity (tonnes of CO2 per USD 1 mn of revenues) is regularly measured at portfolio level and scored based on the relevant investment universe or fund benchmark. It should be noted that over 85% of our asset base (as at December 31, 2022) is invested in the healthcare sector, which is naturally exposed to substantially lower carbon emissions than industrial, commodity or energy sectors and broadly diversified global equity indices.

For instance, the five largest investment strategies) show an asset-weighted carbon intensity (scope 1 + 2) of 24.4 tonnes of CO2 emissions per USD 1 mn of revenues. According to the five-stage scale of MSCI ESG, this represents the second-best category of "Low". By way of comparison, the MSCI World equity index shows a weighted average carbon intensity of 138.2 tonnes per USD 1 mn of revenues, which is classed as «Moderate».

Calculated across all Bellevue's liquid investment strategies, asset-weighted carbon intensity (scope 1+2) is around 32.8 tonnes of CO2 per USD 1 mn of revenues.

☐ (B) Yes, beyond our standard planning horizon

☐ (C) No, we have not identified climate-related risks and/or opportunities affecting our investments

Indicator	Type of indicator	Dependent on	Gateway to	Disclosure	Subsection	PRI Principle
PGS 41.1	CORE	PGS 41	N/A	PUBLIC	Climate change	General

Does your organisation integrate climate-related risks and opportunities affecting your investments in its overall investment strategy, financial planning and (if relevant) products?

● (A) Yes, our overall investment strategy, financial planning and (if relevant) products integrate climate-related risks and opportunities

Describe how climate-related risks and opportunities have affected or are expected to affect your investment strategy, financial planning and (if relevant) products:

Within our Healthcare product range, climate related risks are considered through inclusion on the overall rating as well as through PAI monitoring, however, the sector does by nature not offer climate related opportunities. For our non-Healthcare offering, namely our Entrepreneur strategies, we from time to time identify explicit climate-related opportunities e.g. with companies undergoing product transition (e.g. Subsea 7 in transition from offshore oil to offshore wind energy)

- (B) No, our organisation has not yet integrated climate-related risks and opportunities into its investment strategy, financial planning and (if relevant) products

Indicator	Type of indicator	Dependent on	Gateway to	Disclosure	Subsection	PRI Principle
PGS 42	PLUS	N/A	N/A	PUBLIC	Climate change	General

Which sectors are covered by your organisation's strategy addressing high-emitting sectors?

- ☐ (A) Coal
- ☐ (B) Gas
- ☐ (C) Oil
- ☐ (D) Utilities
- ☐ (E) Cement
- ☐ (F) Steel
- ☐ (G) Aviation
- ☐ (H) Heavy duty road
- ☐ (I) Light duty road
- ☐ (J) Shipping
- ☐ (K) Aluminium
- ☐ (L) Agriculture, forestry, fishery
- ☐ (M) Chemicals
- ☐ (N) Construction and buildings
- ☐ (O) Textile and leather
- ☐ (P) Water
- ☐ (Q) Other

● (R) We do not have a strategy addressing high-emitting sectors

Indicator	Type of indicator	Dependent on	Gateway to	Disclosure	Subsection	PRI Principle
PGS 43	CORE	N/A	N/A	PUBLIC	Climate change	General

Has your organisation assessed the resilience of its investment strategy in different climate scenarios, including one in which the average temperature rise is held to below 2 degrees Celsius (preferably to 1.5 degrees Celsius) above pre-industrial levels?

- ☐ (A) Yes, using the Inevitable Policy Response Forecast Policy Scenario (FPS) or Required Policy Scenario (RPS)
- ☐ (B) Yes, using the One Earth Climate Model scenario
- ☐ (C) Yes, using the International Energy Agency (IEA) Net Zero scenario
- ☐ (D) Yes, using other scenarios
- ☒ (E) No, we have not assessed the resilience of our investment strategy in different climate scenarios, including one that holds temperature rise to below 2 degrees

Indicator	Type of indicator	Dependent on	Gateway to	Disclosure	Subsection	PRI Principle
PGS 44	CORE	N/A	N/A	PUBLIC	Climate change	General

Does your organisation have a process to identify, assess, and manage the climate-related risks (potentially) affecting your investments?

- ☒ (A) Yes, we have a process to identify and assess climate-related risks
 - (1) Describe your process

Investments in sectors prone to climate-related risks are regularly reviewed on their low carbon transition status such as to avoid companies with asset stranding status
 - (2) Describe how this process is integrated into your overall risk management

Asset stranding status is integrated into our monthly ESG risk management report
- ☐ (B) Yes, we have a process to manage climate-related risks
- ☐ (C) No, we do not have any processes to identify, assess, or manage the climate-related risks affecting our investments

ESG INCORPORATION IN PORTFOLIO CONSTRUCTION

Indicator	Type of indicator	Dependent on	Gateway to	Disclosure	Subsection	PRI Principle
LE 5	PLUS	OO 21	N/A	PUBLIC	ESG incorporation in portfolio construction	1

Provide an example of how you incorporated ESG factors into your equity selection and research process during the reporting year.

Bellevue Sustainable Healthcare - the fund has to comply with the standards of the Austrian Ecolabel and is annually reviewed by an external consultant. Overall ESG risks of the overall healthcare universe are measured and stocks within the 40% worst ESG risk performers are excluded from the further stock selection process. In order not to discriminate Emerging Market from Developed Markets stocks, this process is performed on the two sub-universes and hence it is assured that also EM healthcare stocks (which are absolutely crucial for the provision of essential HC services in underdeveloped nations) are considered in the portfolio. Apart from the overall ESG risk score, the fund also measures the level of alignment of each single stock against the UN SDG objectives (by MSCI ESG methodology). Whenever a UN SDG net alignment score is 2.0 or above (on a scoring scale from +10 till -10), i.e. positively aligned, it is classified as an sustainable investment, provided that DNSH and good governance metrics are fulfilled. The portfolio must exhibit a minimum of 50% of its NAV in stocks classified as "sustainable investments".
